

# Proposed Landscaping Renovation for Olde Raleigh Entrance Duraleigh Road

## Outside of Gate – Duraleigh Road Side

On both sides *Euonymus Japonica* forms a contoured hedge. The *Euonymus* that is in the direct sun has *Euonymus scale*, so they should be treated. It will continue to be a constant problem unless they are treated professionally on a routine basis or they should be removed.

## Right Side Facing Gate Entrance

### Clean Up

dig, and/or remove & replant *Nandina*  
remove ornamental grass, deciduous hollies keep larger one, remove two  
prune existing plant material at proper time  
mark each shrub/ground cover with plastic ribbon/tag to prevent  
improper pruning  
on inside of fence, trim branch of pine tree and remove tree growing up  
next to pine

### Add

(3) *Variiegated Fatshedra* – front right corner  
*St. John's Wort 'Brigadoon'* or *Vinca 'Illumination'* groundcover all along  
the front of the beds - Number to be determined  
Spring bulbs – *Daffodils*, *Jonquils* several sweeps throughout Juniper  
(1) *Cephalotaxus harringtonia*  
(1) *Variiegated Acuba*  
(1) *Stauntonia Vine* – to climb up bare section of brick wall

## In Front of Gatehouse

In the area around the *Japanese maple*  
Remove all the *Nandinas*, leaving two in the back  
Add *Caryopteris 'Snow Fairy'* around the front

## **Behind Gatehouse**

Clean Up

Remove/replace some of the *Nandinas* (semi-circle)

Add

3-5 *Red 'Knockout' Rose* bushes

## **Left side Facing Gate Entrance**

Clean Up

Thin and remove *Nandina*

Remove all three *deciduous Holly trees, ivy and waxed Myrtle*; to keep symmetry, pull some *Juniper* and replace with *Variegated Fatshedra*.

Add

(1) *Variegated Fatshedra*

(1) *Variegated Acuba*

(1) *Cephalotaxus harringtonia*

(1) *Daphnephylum*

*St. John's Wort 'Brigadoon'* and/or *Vinca 'Illumination'* groundcover

Number to be determined

Francis is inquiring about any covenants and/or restrictive agreements about planting a conifer (which one?) by the cemetery gate.

All areas to be mulched with shredded hardwood mulch or composted leaf mold after work is complete.

## **Inside of Duraleigh Road Gate**

### **Right Side Facing Gate**

Clean Up

Weed area

Add                    Cut back *Burford hollies* away from fence, as far back as possible  
                          (5) *Nandinas* (removed from front beds)

### **Center Facing Gate**

Clean Up            Remove *Nandinas* from around base of *Foster Holly tree*,  
                          keeping ones in back

Add                    *Creeping Sedum* in front and around base of *Holly*

### **Left Side Facing Gate**

Clean Up            Remove/thin/replace *Nandinas*  
                          Move 3 *Pieris shrubs* to shadier area near gate sign  
                          Remove *Wild Cherry tree*, grind stump

All areas to be mulched with shredded hardwood mulch or composted leaf mold after work is complete.
